HONOLULU BOTANICAL GARDENS

Celebrating trees in the wao kanaka, where we live, learn, and play.

E komo mai.

This passport belongs to:

your name

Welcome to the Honolulu Botanical Gardens!

Come celebrate trees with us at all five of the City and County of Honolulu's botanical gardens— Wahiawā, Foster, Lili'uokalani, Koko Crater, & Ho'omaluhia.

Our gardens take care of plants from around the world, including native Hawaiian species, tropical plants, and exceptional trees.

You can help the gardens thrive by staying on paths, leaving everything where it is, and telling your friends about how important plants are to you.

On the back of this passport, you can even SHOW the world how much you love trees by drawing yourself with one and posting it to Instagram #honolulubotanicalgardens.

The inside pages of this passport encourage you to discover the different shapes, colors, textures (without touching), and sounds of each garden.

When you find each thing on that page, check them off and draw them in the space provided.

Some of the gardens have people there who can stamp your page and answer questions you may have. — Enjoy!

Ho'omaluhia Botanical Garden

- ☐ a round fruit
- ☐ a trumpet-shaped flower
- ☐ a leaf with smooth edges
- ☐ the tallest tree in the garden
- ☐ roots that stick out of the ground

something red

a duck quacking
